

GLOBAL AV GROUP

BY JASON OJEDA

A NEW YEAR FULL OF POSSIBILITIES

Welcome to 2025!

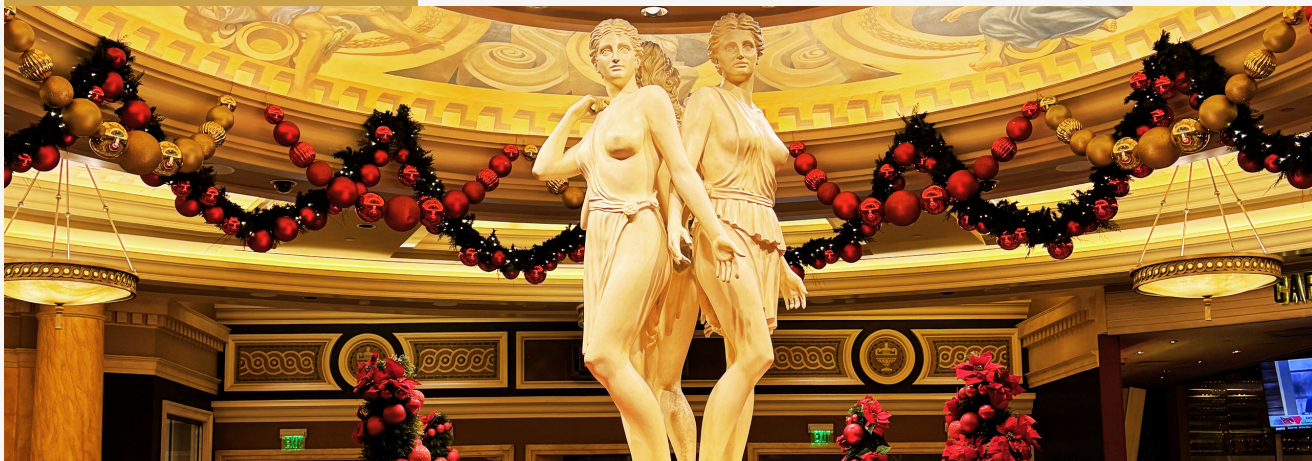

As we close the book on 2024, our team is excited and laser-focused on creating more extraordinary experiences for our clients in 2025.

Our team has unwavering dedication to excellence and our clients' success. It is through their collective skills, knowledge, and expertise that truly differentiates us from other AV integrators.

Here are a few highlights from 2024, along with some of what we aspire to accomplish in the New Year!

Jason Ojeda

NEW IN TOWN

2024 brought us our very first client on the legendary Las Vegas strip. Caesars Palace entrusted us to provide a complete renovation of its audio system in what is arguably the most iconic casino on the strip.

IT IS NOT YOUR 'TYPICAL' 70v SYSTEM

We didn't take the easy way out. This audio system was meticulously designed to create a high-fidelity listening environment using new and proprietary technology. AND, with the tap of a finger, the Caesars team has ultimate control over each unique area of this expansive space, using a custom-built sound control application we custom-created for them.

With over one thousand loudspeakers and sub-woofers installed, ensuring uncompressed audio to the Q-SYS cores, partnering with Caesar's music provider, and expertly programming the entire system, we created and curated a comfortable ambient environment for their guests.

Now that we've successfully completed our first three projects, including the newly opened Palace Court Slots & Tables for their high-limit guests, exciting new opportunities await us with our new friends at Caesars Palace Las Vegas!

STK NIAGARA FALLSVIEW - ONTARIO, CANADA
THE ONE GROUP

OH Canada!

Global AV Group is beyond honored to continue our collaboration with The One Group (TOG). Together, we are delivering a “vibe atmosphere” to perfectly accompany its culinary delights.

In 2024, we delivered five (5) fantastic projects across three of TOG’s brands: STK, Kona Grill, and their newest addition to the restaurant family, Salt Water Social. From Washington DC to Florida, Denver and Oregon too, we can officially say, we’ve gone international!

STK Niagara Fallsview is our very first project in Canada. With breathtaking views of Niagara Falls, on the Canadian side, this new location is nestled within the Embassy Suites Hotel and has a 650 seat capacity. Locals and tourists alike come to enjoy the beauty, the vibe, along with an upscale dining experience.

Our team looks forward to continuing our collaboration in 2025 and beyond!

MARY LOU'S

Only rivaled by its muse, this trendy new speakeasy perfectly blends exquisite art and antiques with the oceanic vibe of Palm Beach. Guests will enjoy handcrafted cocktails and musical vibes curated by The Chainsmokers, over a very special sound system. The room is acoustically treated, and designed, built, and programmed to perfection, bringing to life Coda Hops 12/Hops 8 loudspeakers along with Void Acoustic Arcline 118 18" subs. So proud to be part of this unique project!

THE LIBRARY

Our amazing friends at Ojas invited us to work on an incredible project for one of their celebrity clients. This NBA star wanted to kick off the new year with a BOOM and we delivered. Our design and buildout included ground stacks by Devon Ojas & NNNN. Let me just say...these are nothing short of SPECTACULAR! Huge shoutout and thankful for being part of such a fun collaboration!

ON DECK IN 2025

"VIVA LAS VEGAS!"

After completing three awesome projects at Caesars Palace Las Vegas, we're excited to share that 2025 is shaping up to be another thrilling year. Word has spread about our expertise, passion, and professionalism, and it's no surprise that new opportunities are opening at some of the city's most iconic properties. Stay tuned for more updates as we continue to redefine excellence in the heart of Las Vegas!

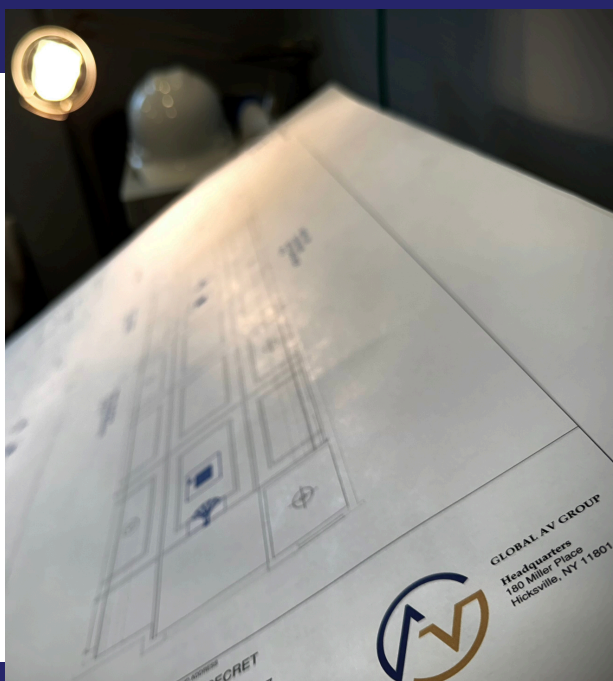

SHACK 15

Within the iconic Ferry Building lies Shack15, a one-of-a-kind social club spanning an impressive 51,000 square feet. We are thrilled to contribute to this extraordinary project, delivering immersive sound experiences that elevate their curated events, culinary creations, world-class speakers, live DJs, and Artists-in-Residence. Shack15 members are promised a cultural journey with every visit, all set against the stunning backdrop of panoramic views of the San Francisco Bay.

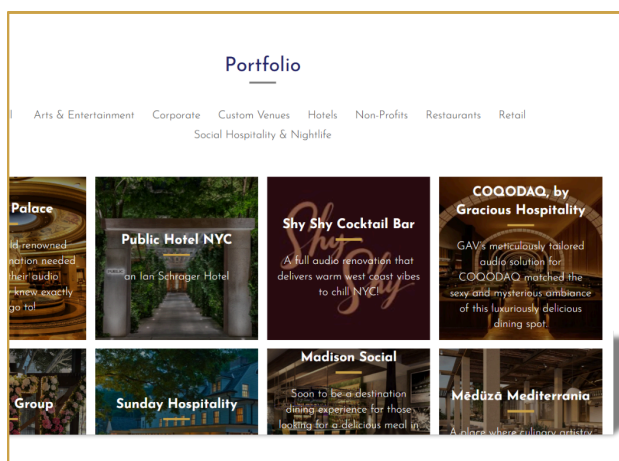

OFFICE-TO-RESI TRANSFORMATION

The Vanbarton Group, a boutique real estate investment firm, purchased the Terence Cardinal Cooke Building where the former headquarters of NY's Archdiocese used to reside, located at 1011 First Avenue. This project is another Office-to-Residential conversion for the group and Global AV Group will be part of its transformation. We are excited to partner with The Vanbarton Group on another unique project!

What we do best...

Global AV Group has built its reputation on crafting dynamic audiovisual experiences at events, in commercial spaces, and in clients' homes. Audiovisual technology is our stock in trade, whether designing a home theater, design consulting for a new venture, or installing high-end sound, video, and lighting systems for a commercial client. We take pride and stake our reputation in creating thoughtful, well-designed unique environments and experiences for our clients.

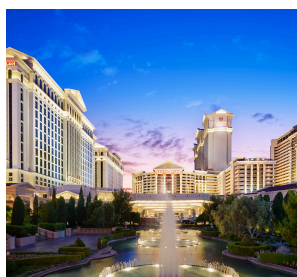

OUR PORTFOLIO

Be it commercial or residential, big or small, we have a solution for your every need.
